Description

EMIPRO KITCHEN/TAP mixer offers the perfect watering experience – bring control, safety and performance together in a simple and easy to use unit.

The mixer is intended for use in residential applications only, with equal low pressure or equal mains pressure water supply systems.

The mixer is available in stainless steel finish.

The start & stop of the flow of the mixer is controlled by the control handle.

The mixed temperature is controlled by the shower control unit and is adjusted by the control handle.

Scope of use

The EMIPRO kitchen and tap mixer is intended for use with hot & cold water in residential applications only, with equal mains or equal low pressure water supply systems.

Conditions of use

The EMIPRO kitchen and tap mixer must be installed & commissioned by a registered plumber in accordance with the supplied instructions & in compliance with the relevant requirements of AS/NZS 3500.

The water supply pipes must be flushed thoroughly to remove any debris. In-line water filters must be used.

Hot & cold inlet pressures must be nominally equal. Not suitable for unequal pressure installations.

This product is cleanable and impervious to moisture — cleaning shall be done in accordance with the supplied cleaning instructions.

Relevant building code clauses

B2 Durability — B2.3.1 (c)

F2 Hazardous building materials — F2.3.1

G1 Personal Hygiene — G1.3.2

G12 Water Supplies — G12.3.2, G12.3.5

Contributions to compliance

B2.3.1(c): Per B2/AS1, Durability Requirements of Nominated Building Elements for Plumbing Fixtures, Englefield Studio thermostatic shower/bath mixer has a durability of at least 15 years, when installed and maintained in accordance with our supplied instructions.

F2.3.1: No materials used in the construction of Englefield Studio thermostatic shower/bath mixer gives rise to harmful concentrations at the surface of the material where the material is exposed, or in the atmosphere of any space.

G1.3.2: ENGS kitchen and tap mixers features chrome finished surfaces for ease of cleaning.

G12/AS1 2.1.2: All installations should comply with local plumbing codes and relevant requirements of AS/NZS 3500.
